Mohamed El-Sayed Fahim Badr

Front-End Developer | React.js, Next.js

Cairo, Egypt | +20 1093359827 | +20 1030678209
E-mail | GitHub | LinkedIn

CAREER OBJECTIVE

Frontend Developer with 2 years of experience building high-performance web applications using React, Next.js, and TypeScript.
Skilled in Redux Toolkit and Tailwind CSS, with a focus on scalable, maintainable, and user-friendly interfaces.
Passionate about clean code, modern frontend practices, and delivering impactful digital products.

EDUCATION

Bachelor of Science – Faculty of Science, Tanta University *2024*

- **Major:** Statistics and Mathematics | **Minor:** Mathematics.

Certifications & training

- **Information Technology Institute (ITI)** – MERN Stack Web Development *(July 2025 – In Progress).*
- **Upskilling** – Advanced Frontend Development Program *(Aug 2024 – Oct 2024).*
- **EraaSoft** – Frontend Development Track *(Jan 2023 – May 2023).*

LANGUAGES

- Arabic: Native proficiency
- English: Intermediate

MILITARY STATUS

- Exempt (Final Exemption).

PROFESSIONAL EXPERIENCE

Front-End Developer at Valkii – Remote Dec 2023 – Present

- Engineered 7+ scalable, client-facing web applications using React.js, Next.js, and TypeScript with strong focus on performance and maintainability.
- Optimized performance by implementing lazy loading and dynamic imports, achieving a 40% improvement in Lighthouse scores.
- Reduced bundle size by 28% through strategic code splitting and dependency optimization, enhancing load times.
- Developed 25+ reusable, modular UI components, expediting development cycles and ensuring UI consistency.
- Accelerated development speed by 30% through contributions to internal design systems and tooling.
- Improved user engagement by 18% by enhancing UI responsiveness, accessibility compliance (WCAG standards), and cross-browser compatibility.
- Led front-end development for a platform serving 10,000+ monthly active users, ensuring high availability and performance.
- Collaborated with cross-functional Agile teams (designers, backend engineers, QA) to deliver features within biweekly sprint cycles.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML, CSS, SASS.
- **Frameworks:** React.js, Next.js, Node.js, Express.js.
- **Libraries:** Redux, Redux Toolkit, Zustand, React Query, Context API, Tailwind CSS, Bootstrap, MUI, Chart.js, React-hook-form, Formik, Yup, Zod, JWT, Bcrypt.js, Multer, Validator, Axios.
- **Tools:** Git, GitHub, Postman.
- **Core Competencies:** Responsive Design, Performance Optimization, SSR/SSG, API Integration, Authentication & Authorization (JWT), Error Handling & Middleware, Database Design & Query Optimization, MVC Architecture, CRUD Operations, Component Reusability, Web Accessibility, Validation, Environment Configuration, CORS, Logging & Debugging.
- **Soft Skills:** Communication, Problem-Solving, Time Management, Collaboration (Agile).
- **Additional Knowledge:** C++, Data Structures & Algorithms.

PROJECTS & EXPERIENCE

J-Looms (School Management Dashboard) | Next.js, TypeScript, Tailwind, Zustand

- Built role-based features for managing teachers, students, parents, classes, curriculum, activities, and feedback.
- Integrated authentication, scalable state management, and secure form validation.
- Delivered responsive UI with Tailwind, Pro-Sidebar, and Toastify notifications.

• [Live Demo] • [GitHub Repo].

TAZWOD (Online Grocery Delivery Platform) | Next.js, TypeScript, Tailwind, Redux Toolkit

- Multi-role platform for admins, sellers, and customers.
- Features: product management, order tracking, category filtering, role-based dashboards.
- Built a responsive UI with Tailwind CSS and enhanced interactivity using Framer-Motion animations.
- Integrated secure authentication and form validation with Formik and Yup.

• [Live Demo] • [GitHub Repo].

CarLeaps (Car Marketplace Web App) | Next.js, TypeScript, Zustand, Chart.js, Google Maps

- Marketplace with role-based access for dealers and customers.
- Dynamic region-based layout rendering, tailoring the interface based on user location.
- Custom admin dashboard for managing users, listings, and transactions.
- Integrated Google Maps and dynamic region-based layouts.

• [Live Demo] • [GitHub Repo].

TLNTO (Job Board Platform) | Next.js, TypeScript, Zustand, Chart.js

- Job board with CRUD functionality for jobs, users, and applications.
- Dynamic region-based layout rendering, tailoring the interface based on user location.
- Implemented advanced filtering by role, location, and salary.
- Built company dashboard for job postings and application metrics.

• [Live Demo] • [GitHub Repo].
